

## Raintaina RWP Filter Diffuser

RTNA05002

RAINTAINA

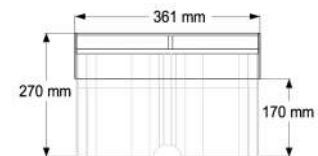

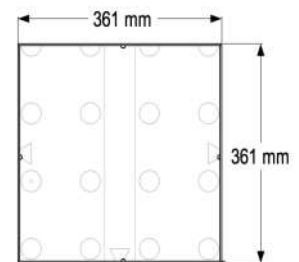

### Description

The Raintaina RWP Base Unit Diffuser with mesh surround is similar to the Raintaina RWP Base Unit in the sense that it is lightweight yet incredibly strong. With this product however the bottom half of the unit is encapsulated by a 2mm mesh which avoids debris clogging. This provides an excellent open surface water runoff to easily flow into the surrounding aggregate.

### Packaging Details

Element	Value	Unit
Packaging unit dimension	TBC	mm
Packaging unit weight	TBC	kg
Number of units per pallet	TBC	nr
Pallet Dimensions	TBC	mm
Pallet weight	TBC	kg

### Specification

Element	Value	Unit
Overall width	361	mm
Overall depth	270	mm
Unit weight	TBC	kg
Material	HDPE	

Quick and easy to install

Easy access for maintenance

Effectively rainwater dispersal
